NOTES:
The rating system is described in more detail in Appendix A.
The following is a brief description of the information in this chart.
A. The column beneath each feature indicates the presence of that feature at the location
0= feature not present
1 = One or more of that feature is present
B. Ratings are assigned to the feature where it occurs as follows:
0 = Obsolete, unsafe, clearly inadequate
1 = Meets some of the basic criteria for that feature, but not all
2 = Meets all of the basic criteria for that feature
3 = Exceeds basic expectation, or of higher than normal quality for that feature
Note: A negative score indicates an element that detracts or is a nuisance.
C. The Score for each feature is the value used to arive at the Total Score for each feature in that location.
D. The Total Score is the value assigned to that park's service radius and is used to generate the composite Community Level of Service Map.

NOTES:
The rating system is described in more detail in Appendix A.
The following is a brief description of the information in this chart.
A. The column beneath each feature indicates the presence of that feature at the location
0= feature not present
1 = One or more of that feature is present
B. Ratings are assigned to the feature where it occurs as follows:
0 = Obsolete, unsafe, clearly inadequate
1 = Meets some of the basic criteria for that feature, but not all
2 = Meets all of the basic criteria for that feature
3 = Exceeds basic expectation, or of higher than normal quality for that feature
Note: A negative score indicates an element that detracts or is a nuisance.
C. The Score for each feature is the value used to arrive at the Total Score for each feature in that location.
D. The Total Score is the value assigned to that park's service radius and is used to generate the composite Neighborhood Level of Service Map.

Neighborhood Scores

GRASP Scoresheet for Neighborhood Analysis

Facility	Rating	Score	Skate Park	Rating	Score	Pool	Rating	Score	Other	Rating	Score	Total Score	Comments
Destination Parks													
Park 1 (Grasso)		0			0			0			0	7	
Park 2 (Ballfield)		0			0			0			0	-2	"attractive nuisance"
Park 3 (Kid's Park)		0			0			0			0	2	detracts from neighborhood due to poor location,
Park 5A (Purple Park - North Portion)		0			0			0			0	14	
Park 5B (Purple Park - South Portion)		0			0			0			0	7	
Park 7 (North Pool)		0			0	1	3	3			0	18.5	
Park 9A (Community Park - East Side)		0			0			0			0	15	
Park 9B (Community Park - Center)		0			0			0			0	12	
Park 9C (Community Park - West Side)	1	1			0			0			0	6	
Park 13 (South Pool)		0	1	2	2	1	3	3			0	17	
Totals		*1.00*	*1.00*		*2.00*	*2.00*		*6.00*	*0.00*		*0.00*		
Local Parks

Estimated Construction Cost for a Typical Facility (Does not include support features such as parking, extending utilities to the site, lighting, land costs, etc.) ($$ in Thousands)		$100	$35	$200	$100	$1,500	$65	$85	$50	$100	$175 (2 Ac w/ irrigated turf)	$75	$75	$10	Unknown	$450 (Refrig.)	$50

Notes

1 In some cases individual features are counted and in others a group of features are counted as a single "facility". For example, ball fields at Community Park are counted individually for Community Scores, but as a single facility for Neighborhood Scores. This is because *capacity* is a primary issue for community needs, but *distribution* is primary for neighborhood needs
In scoring ball fields for neighborhood needs, the availability of ball fields as a service at that location is counted, and the number of fields at the location affects the score assigned to ball fields as a service there

2 Some items may be counted as partial (25, 5, etc) or not counted at all if they are too small or otherwise do not meet normal expectations for that type of facility.

3 Recommended LOS numbers reflect averages that similar communities in the region have adopted, with some adjustments to reflect conditions observed or reported in Superior during the preparation of this plan

4 Costs are approximations only and can range greatly for some features depending on the size, quality, or unique conditions of that feature. Costs shown are based upon typical experiences in the region
