RE: Boulder County Collaboration Agreement Related to the Distribution of CARES Act Funds

Dear Executive Director Garcia;

Boulder County and our ten municipal partners want to thank you for your leadership in securing CARES funding for local governments who did not get a direct allocation of funding from the Department of the Treasury.

The COVID-19 worldwide pandemic has required every local government to expend significant effort and funds to protect the community and to slow the spread of COVID-19. Efforts to slow the spread and protect the community as well as recovery efforts are ongoing and will require continued effort and funding. We thank you for appropriating \$27,889,758 of CARES funding to reimburse Boulder County local governments for these unbudgeted expenses.

Luckily, Boulder County and its municipal partners have a successful track record of working collaboratively for the benefit of the community and we have jointly come to agreement as to how to best allocate these funds. We also recognize that it is in the best interest of the Boulder County community to work cooperatively to ensure that the entire Boulder County allocation is applied to the benefit of Boulder County residents rather than allowing the funds to remain unspent and revert to the state-wide reserve fund pool for reallocation elsewhere in the state.

To this end, the Boulder County Collaborative including Boulder County and the municipalities of City of Boulder, Colorado, the City of Lafayette, Colorado, the City of Longmont, Colorado, the City of Louisville, Colorado, the Town of Erie, Colorado, the Town of Jamestown, Colorado, the Town of Lyons, Colorado, the Town of Nederland,

Deb Gardner *County Commissioner*

Elise Jones *County Commissioner*

Matt Jones *County Commissioner*

Colorado, the Town of Superior, Colorado, and the Town of Ward, Colorado (individually referred to as a “Party” and collectively referred to as the “Parties”) have agreed to the following regarding allocation of the \$27,889,758:

- Each Party is individually responsible for completing all activities necessary to become eligible to receive reimbursement from the CARES Act funds and each Party will keep an appropriate accounting of the expenditure of funds sufficient to meet the needs of the State and their own accounting practices for reimbursement from DOLA.
- Each Party assumes responsibility for ensuring the funds are only used for eligible expenses as determined by DOLA under the CARES Act criteria.
- Each Party will assume responsibility for initially covering their own costs and will apply individually for reimbursement from DOLA.
- All Parties may seek partners on projects eligible for CARES reimbursement from among the other Parties to this agreement, and the Parties may decide to participate in county-wide programs that meet the eligibility requirements for CARES funding. No Party is under any obligation to participate in any such partnership.
- Boulder County will receive 55% of the funding to cover both county-wide COVID-19 expenses and expenses that are specific to the Boulder County local government organization.
- The remaining 45% will be allocated among Boulder County’s ten municipalities based on the 2018 population estimate provided by the Colorado State Demography Office to cover COVID-19 costs specific to their organizations.
- Further, the Parties agree to work collaboratively to reallocate any Parties’ unspent funds to either the County or other municipalities within the county prior to reverting any the \$27,889,758 back to the state-wide reserve pool.

The specific allocation of funds is included as Exhibit A to this letter.

The Parties would again like to express their appreciation for this allocation of funds to meet the needs of Boulder County local governments in addressing the COVID-19 pandemic.
