

INSTRUCTIONS FOR DEBRIS REMOVAL WATER FILL-UP

1. Water for debris removal is being provided by the Town of Superior through a community hydrant meter. No private meters are allowed. Contractors may provide their own water from outside the community if they wish.
2. Hydrant meter hours for community debris removal are from M - F, 9 AM – 3 PM. No weekends or holidays.
3. Request a fill-up appointment at alex@superiorcolorado.gov or 303-499-3675x110 with 1 business days' advance notice. Requests made on weekends will be scheduled for the following Tuesday (except in the case of Monday holidays, which will be scheduled for the following Wednesday).
4. The hydrant meter is located at 5th & Sycamore on the north side of the road. If you fill at the rear end of the truck, approach the hydrant from the west (driving eastbound) and park in the parallel parking spots.
5. You must provide your own 2.5" female threaded attachment to hook to your own cam lock.
6. Turn on the gate valve to fill.
7. **Do Not Touch The Hydrant For Any Reason.** Contractor assumes full responsibility for any damage to the hydrant, meter, hose, or other Town equipment as a result of misuse. If there is an issue with the meter, contact Ed Johnson at 303-709-6727.
8. This is a community resource being provided by the Town of Superior to help our community rebuild quickly and responsibly. Please respect the residents, contractors, staff, and everybody else involved in the rebuilding. The Town reserves the right to limit access to this water source in cases of misuse and/or negligence.
