

TOWN OF SUPERIOR
RESOLUTION NO. R-28
SERIES 2023

A RESOLUTION OF THE BOARD OF TRUSTEES OF THE TOWN OF SUPERIOR APPROVING AN AGREEMENT WITH TRITON SNOW REMOVAL FOR SNOW REMOVAL AND ICE CONTROL SERVICES

NOW BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE TOWN OF SUPERIOR, COLORADO, as follows:

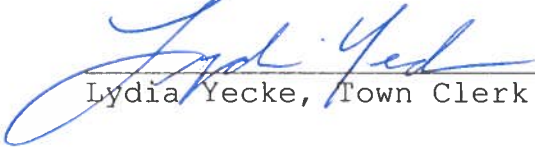

Section 1. The Agreement between the Town of Superior and Triton Snow Removal for snow removal and ice control services is hereby approved in substantially the same form as attached hereto, subject to final approval by the Town Attorney.

ADOPTED this 12th day of June, 2023.

Mark Lacis, President

ATTEST:

Lydia Yecke, Town Clerk

AGREEMENT FOR SERVICES

THIS AGREEMENT FOR SERVICES (the "Agreement") is made and entered into this 12th day of June, 2023 (the "Effective Date"), by and between the Town of Superior, a Colorado municipal corporation with an address of 124 East Coal Creek Drive, Superior, CO 80027 (the "Town"), and Triton Snow Removal, an independent contractor with a principal place of business at 8547 E. Arapahoe Road J-340 Greenwood Village, CO 80112 ("Contractor") (each a "Party" and collectively the "Parties").

WHEREAS, the Town requires services; and

WHEREAS, Contractor has held itself out to the Town as having the requisite expertise and experience to perform the required services.

NOW THEREFORE, for the consideration hereinafter set forth, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

I. SCOPE OF SERVICES

A. Contractor shall furnish all labor and materials (with the exception of anti-icing and de-icing materials as specified herein) required for the complete and prompt execution and performance of all duties, obligations, and responsibilities which are described or reasonably implied from the Scope of Services set forth in **Exhibit A**, attached hereto and incorporated herein by this reference.

B. A change in the Scope of Services shall not be effective unless authorized as an amendment to this Agreement. If Contractor proceeds without such written authorization, Contractor shall be deemed to have waived any claim for additional compensation, including a claim based on the theory of unjust enrichment, quantum merit or implied contract. Except as expressly provided herein, no agent, employee, or representative of the Town is authorized to modify any term of this Agreement, either directly or implied by a course of action.

II. TERM AND TERMINATION

A. Initial Term. The Initial Term of this Contract shall commence on July 1, 2023, and shall terminate on June 30, 2024, unless renewed as set forth in subsection B below. Contractor shall commence work as set forth in the Scope of Services, and except as may be changed in writing by the Town, the Scope of Services shall be complete and Contractor shall furnish the Town the specified deliverables as provided in the Scope of Services.

B. Bid Schedule. On or before June 1 of each successive year after the Initial Term, Contractor shall deliver to the Town a copy of the price breakdown set forth in the Bid Schedule adjusted as follows (the "Adjusted Bid Schedule"):

1. The prices set forth in the Bid Schedule for the initial year of this Contract shall constitute the Base Prices.

2. Mileage will not be paid as an extra, and must be included in the bidder's bid. No fuel surcharges will be paid as extras. All fuel costs are to be included in the contract costs. In the event the average retail cost of diesel fuel increases by more than fifty percent (50%) based on the average Town of Superior price on the day of contract execution, the parties agree to negotiate in good faith to make a pro rata adjustment to fees paid to the contractor to help mitigate the increased fuel cost only. This provision may be applied in multiple steps and will only be granted if there is more than one year remaining in the contract with the Town of Superior.

3. The Base Prices may be adjusted in an amount not to exceed the percentage change (up or down) of the Consumer Price Index for All Urban Consumers (CPI-U), Denver-Aurora-Lakewood area from the most recent non-seasonally adjusted data available for aforementioned index on the Effective Date to the most recent non-seasonally adjusted data available for the index on April 1 of the year in which the Adjusted Bid Schedule is delivered to the Town.

By way of example only: If the most recent data available for the CPI-U for the Denver—Aurora-Lakewood area shows an index of 213.9 for March 30th of the previous year and if the most recent data available for June 30th of the current year shows an index of 221.5, the increase is 3.6 percent. As such, the amounts on the Adjusted Bid Schedule may be increased by no more than 3.6 percent and delivered to the Town by June 1 of that year.

C. **Renewal Option.** The Town shall have the option to renew this Agreement for an additional 1-year term by providing written notice of renewal to Contractor no later than 30 days after Contractor provides the Town with an Adjusted Bid Schedule each year, for up to 3 additional 1-year terms.

D. **Termination.** This Agreement shall terminate at such time as the work described in the Scope of Services is completed and the requirements of this Agreement are satisfied, or upon the Town's providing Contractor with 60 days advance written notice, whichever occurs first. If the Agreement is terminated by the Town's issuance of written notice of intent to terminate, the Town shall pay Contractor for all work previously authorized and completed prior to the date of termination. If, however, Contractor has substantially or materially breached this Agreement, the Town shall have any remedy or right of set-off available at law and equity.

III. COMPENSATION

In consideration for the completion of the Scope of Services by Contractor, the Town shall pay Contractor as set forth in **Exhibit B**, attached hereto and incorporated herein by this reference.

IV. RESPONSIBILITY

A. Contractor hereby warrants that it is qualified to assume the responsibilities and render the services described herein and has all requisite corporate authority and licenses in good standing, required by law. The work performed by Contractor shall be in accordance with generally accepted practices and the level of competency presently maintained by other practicing

contractors in the same or similar type of work in the applicable community. The work and services to be performed by Contractor hereunder shall be done in compliance with applicable laws, ordinances, rules and regulations.

B. The Town's review, approval or acceptance of, or payment for any services shall not be construed to operate as a waiver of any rights under this Agreement or of any cause of action arising out of the performance of this Agreement.

C. Contractor shall at all times comply with all applicable law, including without limitation all current and future federal, state and local statutes, regulations, ordinances and rules relating to: the emission, discharge, release or threatened release of a Hazardous Material into the air, surface water, groundwater or land; the manufacturing, processing, use, generation, treatment, storage, disposal, transportation, handling, removal, remediation or investigation of a Hazardous Material; and the protection of human health, safety or the indoor or outdoor environmental, including without limitation the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. § 9601, *et seq.* ("CERCLA"); the Hazardous Materials Transportation Act, 49 U.S.C. § 1801, *et seq.*; the Resource Conservation and Recovery Act, 42 U.S.C. § 6901, *et seq.* ("RCRA"); the Toxic Substances Control Act, 15 U.S.C. § 2601, *et seq.*; the Clean Water Act, 33 U.S.C. § 1251, *et seq.*; the Clean Air Act; the Federal Water Pollution Control Act; the Occupational Safety and Health Act; all applicable environmental statutes of the State of Colorado; and all other federal, state or local statutes, laws, ordinances, resolutions, codes, rules, regulations, orders or decrees regulating, relating to, or imposing liability or standards of conduct concerning any hazardous, toxic or dangerous waste, substance or material, as now or at any time hereafter in effect.

V. OWNERSHIP

Any materials, items, and work specified in the Scope of Services, and any and all related documentation and materials provided or developed by Contractor shall be exclusively owned by the Town. Contractor expressly acknowledges and agrees that all work performed under the Scope of Services constitutes a "work made for hire." To the extent, if at all, that it does not constitute a "work made for hire," Contractor hereby transfers, sells, and assigns to the Town all of its right, title, and interest in such work. The Town may, with respect to all or any portion of such work, use, publish, display, reproduce, distribute, destroy, alter, retouch, modify, adapt, translate, or change such work without providing notice to or receiving consent from Contractor; provided that Contractor shall have no liability for any work that has been modified by the Town.

VI. INDEPENDENT CONTRACTOR

Contractor is an independent contractor. Notwithstanding any other provision of this Agreement, all personnel assigned by Contractor to perform work under the terms of this Agreement shall be, and remain at all times, employees or agents of Contractor for all purposes. Contractor shall make no representation that it is a Town employee for any purposes.

VII. INSURANCE

A. Contractor agrees to procure and maintain, at its own cost, a policy or policies of insurance sufficient to insure against all liability, claims, demands, and other obligations assumed by Contractor pursuant to this Agreement. At a minimum, Contractor shall procure and maintain, and shall cause any subcontractor to procure and maintain, the insurance coverages listed below, with forms and insurers acceptable to the Town.

1. Worker's Compensation insurance as required by law.
2. Commercial General Liability insurance with minimum combined single limits of \$1,000,000 each occurrence and \$2,000,000 general aggregate. The policy shall be applicable to all premises and operations, and shall include coverage for bodily injury, broad form property damage, personal injury (including coverage for contractual and employee acts), blanket contractual, products, and completed operations. The policy shall contain a severability of interests provision, and shall include the Town and the Town's officers, employees, and contractors as additional insureds. No additional insured endorsement shall contain any exclusion for bodily injury or property damage arising from completed operations.

B. Such insurance shall be in addition to any other insurance requirements imposed by law. The coverages afforded under the policies shall not be canceled, terminated or materially changed without at least 30 days prior written notice to the Town. In the case of any claims-made policy, the necessary retroactive dates and extended reporting periods shall be procured to maintain such continuous coverage. Any insurance carried by the Town, its officers, its employees, or its contractors shall be excess and not contributory insurance to that provided by Contractor. Contractor shall be solely responsible for any deductible losses under any policy.

C. Contractor shall provide to the Town a certificate of insurance as evidence that the required policies are in full force and effect. The certificate shall identify this Agreement.

VIII. INDEMNIFICATION

Contractor agrees to indemnify and hold harmless the Town and its officers, insurers, volunteers, representative, agents, employees, heirs and assigns from and against all claims, liability, damages, losses, expenses and demands, including attorney fees, on account of injury, loss, or damage, including without limitation claims arising from bodily injury, personal injury, sickness, disease, death, property loss or damage, or any other loss of any kind whatsoever, which arise out of or are in any manner connected with this Agreement if such injury, loss, or damage is caused in whole or in part by, the act, omission, error, professional error, mistake, negligence, or other fault of Contractor, any subcontractor of Contractor, or any officer, employee, representative, or agent of Contractor, or which arise out of a worker's compensation claim of any employee of Contractor or of any employee of any subcontractor of Contractor.

IX. MISCELLANEOUS

A. *Governing Law and Venue.* This Agreement shall be governed by the laws of the State of Colorado, and any legal action concerning the provisions hereof shall be brought in Boulder County, Colorado.

B. *No Waiver.* Delays in enforcement or the waiver of any one or more defaults or breaches of this Agreement by the Town shall not constitute a waiver of any other terms or obligations of this Agreement.

C. *Integration.* This Agreement constitutes the entire agreement between the Parties, superseding all prior oral or written communications.

D. *Third Parties.* There are no intended third-party beneficiaries to this Agreement.

E. *Notice.* Any notice under this Agreement shall be in writing, and shall be deemed sufficient when directly presented or sent pre-paid, first class U.S. Mail to the Party at the address set forth on the first page of this Agreement.

F. *Severability.* If any provision of this Agreement is found by a court of competent jurisdiction to be unlawful or unenforceable for any reason, the remaining provisions hereof shall remain in full force and effect.

G. *Modification.* This Agreement may only be modified upon written agreement of the Parties.

H. *Assignment.* Neither this Agreement nor any of the rights or obligations of the Parties shall be assigned by either Party without the written consent of the other.

I. *Governmental Immunity.* The Town and its officers, attorneys and employees, are relying on, and do not waive or intend to waive by any provision of this Agreement, the monetary limitations or any other rights, immunities, and protections provided by the Colorado Governmental Immunity Act, C.R.S. § 24-10-101, *et seq.*, as amended, or otherwise available to the Town and its officers, attorneys or employees.

J. *Rights and Remedies.* The rights and remedies of the Town under this Agreement are in addition to any other rights and remedies provided by law. The expiration of this Agreement shall in no way limit the Town's legal or equitable remedies, or the period in which such remedies may be asserted, for work negligently or defectively performed.

K. *Subject to Annual Appropriation.* Consistent with Article X, § 20 of the Colorado Constitution, any financial obligation of the Town not performed during the current fiscal year is subject to annual appropriation, shall extend only to monies currently appropriated, and shall not constitute a mandatory charge, requirement, debt or liability beyond the current fiscal year.

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the Effective Date.

**EXHIBIT A
SCOPE OF SERVICES**

1 Background

Standard snow removal in the Town shall consist of work on approximately 12 centerline miles of Priority Level 1 roadways which are a mix of high volume 2-lane, 4-lane, and 4-lane divided streets all with bike lanes; approximately 7 centerline miles of Priority Level 2 roadways which are 2-lane streets with bike lanes or parking lanes; approximately 7 centerline miles of Priority Level 3 streets that require a single clearing pass; and approximately 8 centerline miles of Priority 4 streets that may require a single pass during major snowstorms. The map included as attachment D – snow removal map, indicates the location of these streets.

2 Scope of Work

Contractor shall perform snow and ice control operations for the streets identified on the attached map per the levels of service listed below. Where any question arises regarding the performance of the listed duties, it shall be the responsibility of Contractor to bring these to the attention of the Town.

Contractor shall be responsible for monitoring weather forecasts and observing road conditions with alerts sent to the Town via e-mail or text message. Contractor shall commence snow or ice control operations when:

- Directly instructed by the Town Manager, Public Works Director or designee, or Boulder County Sheriff's Department; or
- Upon Contractor's own observations and after receiving specific authorization by the Town Manager, Public Works Director, or other designated Town representative; or
- Upon Contractor's own observations and after making two documented unsuccessful attempts to contact Town authorities to commence plowing operations.

The Town must maintain a special environmental awareness and sensitivity in the use of chemicals for snow and ice control. Environmental considerations include controlling runoff, protecting groundwater, protecting vegetation, and minimizing air quality and street safety impacts associated with the use of abrasives. To achieve this goal Contractor shall implement the latest strategies and Best Management Practices. It is the goal of the Town to reduce or eliminate the reliance on sand during snow and ice control operations as it contributes to the amount of small particulate matter in the air.

CDOT Standards for use of liquid de-icers sets a maximum distribution rate of 40 gallons per lane mile. The standard for the application of straight salt or "Ice-Slicer" deicer is a

maximum distribution rate of 100 pounds per lane mile. Salt/sand mix at 30% concentration has a distribution rate of 200 pounds per lane mile to a maximum rate of 400 pounds per lane mile. Contractor shall demonstrate that equipment being provided can meet these rates. These CDOT Standards shall be used as guidelines. Adjustments can be made based on storm and road conditions.

Contractor shall make all efforts to mechanically clear roadways as close to bare pavement to the maximum extent practical prior to the application of any chemicals.

3 **Levels of Service**

Priority Level 1 – Arterial and Major Collector Streets

McCaslin Boulevard, 76th Street, Sycamore Street, Rock Creek Parkway, 88th Street, Coalton Road, Indiana Street, Promenade Drive, Superior Drive, and Main Street.

These roadways shall be the primary focus of Contractor's work during any storm. These roadways may be pretreated prior to storm events and shall be plowed once snow accumulates to a depth of 2 inches or when icy conditions exist. These roadways shall be cleared curb to curb or to the outside of the paved shoulders in the case of McCaslin Blvd. south of Rock Creek Parkway. Priority Level 1 streets shall be plowed by 2 tandem axle plows operating in echelon formation to maximize the width of the street to be cleared while snow is falling and should be plowed curb to curb, including auxiliary lanes within 12 hours after the completion of the snowfall.

Priority Level 2 – Secondary Collector Streets

Torreys Peak Drive, Rock Creek Circle, Coal Creek Drive, Castle Peak Avenue, Huron Peak Avenue, Eldorado Drive, Pitkin Avenue, Mt. Sopris Way, Yarrow Circle, Superior Drive and Old Rail Way

These roadways shall be the secondary focus of Contractor's work during storms. These routes may also be pretreated prior to storm events and shall be plowed once snow accumulates to a depth of 2 inches as time permits. Operations may begin on these streets concurrently with the Priority Level 1 routes. These routes shall be plowed to open the driving lanes in both directions to the extent allowable dependent on parking and snow conditions.

Priority Level 3 – Neighborhood Collector Streets

See map for specific routes.

These routes shall be cleared to provide a single drivable lane once snow accumulates to a depth of 2 inches or more or at the direction of the Town. Spot treatment for ice control shall be applied at intersections or problem areas only.

Priority Level 4 – Residential Streets

See map for specific routes.

These routes shall be plowed for a single pass upon direction of the Town without application of de-icing material.

Ice Cutting – the Town may request that the contractor provide labor and equipment necessary to remove ice buildup in specific locations throughout the Town. Ice cutting may include the application of de-icing material, heat, mechanical equipment or other means; and removal and hauling of ice to approved sites within the Town. Ice cutting must be done in a manner which will prevent damage to public improvements such as curb, gutter and sidewalks. Contractor shall be held responsible for excessive damage public infrastructure.

4 **Materials for Ice Control**

The Town has partnered with CDOT to allow the Town's use of CDOT's facility on Marshall Road/SH 170 for stockpiling of salt/sand, Ice-Slicer, and liquid de-icers. The Town shall purchase all materials directly and arrange for delivery to this facility. **Contractor's duties shall include the moving and piling of delivered materials into the storage facility.** Contractor shall be paid hourly for this work.

5 **Equipment**

The Town shall not provide any equipment, vehicles, or personnel to complete the work on Priority 1 or 2 streets. It shall be the responsibility of Contractor to provide all items necessary for the completion of the snow removal, and surface treatment application of ice control materials.

Contractor shall stage or otherwise have readily available, at a minimum, the following equipment at the Town's storage yard, located at 2125 Honey Creek Lane in Superior (or at a mutually agreed upon location within or near the Town), between the dates of October 1 and April 30:

- 1 truck equipped with a 10' hydraulically adjustable plow and sanding box with a 4 CY minimum capacity.
- 3 tandem rear axle dump trucks, each equipped with a 12' minimum, hydraulically adjustable plow and combination sanding box with a 4 CY minimum capacity and a liquid deicer distributor of 1000 gallon minimum capacity.

Contractor shall stage at the CDOT facility located on Marshall Road in Superior between the dates of October 1 and April 30 for the duration of the Agreement:

- 1 rubber tire front end loader with a minimum 1½ CY bucket capable of loading the granular material into the plow trucks; and moving and piling of delivered materials into the CDOT storage facility

All equipment shall:

1. Comply with all CDOT regulations and state vehicle registration laws and regulations;
2. Be clean and in good working order;
3. Be equipped with adequate and operable safety beacons and backup alarms; and
4. Undergo a safety inspection before and after being utilized on a shift.

Snowplow trucks shall be equipped with GPS trackers. The contractor should note in their qualifications if their trucks are equipped with GPS trackers which Town staff can have access to. If trucks are not equipped with GPS trackers, the Town may provide GPS trackers for use by the contractor and the Town. Upon request by the Town, GPS data collection shall include information on plow up or down, material application and any other information requested by the Town. All distribution equipment including distributors, hydraulic systems, and controls shall be less than 10 years old. All equipment for the distribution of granular or liquid ice control materials shall include controls to vary the application rates. Electronically controlled distribution equipment shall be calibrated at the beginning of the season. Distributors without electronic controls shall be calibrated at least bi-monthly. Drivers shall be familiar with the use of these controls and be able adjust the amount of material being spread during operation.

Contractor shall maintain all equipment in a state of constant readiness at contractor's expense. Any equipment failure resulting in reduced service levels shall be reported to the Town immediately. Contractor shall make sufficient plans to provide substitute equipment, at contractor's expense, within 24 hours of determining that one or more pieces of equipment are not able to operate in a safe manner for the purposes of this contract in full compliance with federal, state and local laws and regulations.

6 **Annual Requirements**

On or before October 1 of each year, Contractor shall:

- Provide documentation of legal ownership, registration and any applicable inspections performed on any piece of equipment planned to be placed into service as part of this contract.
- Conduct a calibration test of each material spreader to assure that the equipment is set to apply de-icing material in a manner consistent with the standards identified within this document.

- Comply with all applicable local, state and federal regulations. Contractor shall comply with all applicable environmental regulations associated with the storage of chemicals, maintenance of vehicles, maintenance yard, capture of hazardous material spills, etc.

7 Payments

- 7.1 **Annual equipment and retainer fee:** Contractor shall be paid in seven (7) equal monthly installments starting on or before October 1, 2023. This fee shall cover all of the contractor's costs for providing the equipment identified in Section 3.5 (four snowplows and one loader) in a state of readiness to respond to any snow event from October 1, 2023 to April 30, 2024. These costs include the costs of ownership, registration, insurance, maintenance (including snowplow blades) and any other incidental costs.
- 7.2 **Services Provided in Response to Snow Events:** Contractor shall be paid on an hourly basis for snow removal and ice control services. Hours shall be measured by GPS tracking devices from the time snow removal vehicles leave the contractor's yard to the time vehicles return to the yard. Hourly rates shall include operator salaries, benefits and incidental costs for operators; and fuel costs for vehicles as well as cleaning and washing of vehicles. Payments for the hourly work for snow and ice control shall be made monthly after submittal of required documentation.
- 7.3 **Loader Operations:** Contractor shall be paid on an hourly basis for loading granular material into plow trucks; and moving and piling of delivered materials into the CDOT storage facility. Hours shall be measured based on time equipment is actively in use. Hourly rates shall include operator salaries, benefits and incidental costs for operators; and fuel costs for vehicles as well as cleaning and washing of vehicles. Payments for the hourly work for snow and ice control shall be made monthly after submittal of required documentation
- 7.4 **Standby Services:** Contractor shall be paid on an hourly basis for standby services and for any coordination meetings. Hourly rates shall include salaries, benefits and incidental costs for assigned personnel. Payments for the hourly work for standby services shall be made monthly after submittal of required documentation.
- 7.5 **Additional Snow Removal Services:** The Town may request additional snowplow vehicles during heavy snowfall events; or for events which fall outside the October 1 to April 30 retainer window. A heavy snowfall event is defined as an event when snowfall of 6 inches or more in 12 hours or 8 inches or more in 24 hours. Contractor shall be paid on an hourly basis for such snow removal and ice control services. Hours shall be measured by GPS tracking devices from the time snow removal vehicles leave the contractor's yard to the time vehicles return to the yard. For these additional services, hourly rates shall include both equipment

related costs (costs of ownership, registration, insurance, fuel, maintenance and any incidental costs) and operator costs (including salaries, benefits and incidental costs for operators). Additional equipment must be approved by the Public Works and Utilities Director or designee. Payments for the additional hourly work for snow and ice control shall be made monthly after submittal of required documentation.

7.6 **Additional Loader Operations:** The Town may request additional loader services for heavy snow events as defined above or for services which fall outside the October 1 to April 30 retainer window. Contractor shall be paid on an hourly basis for these additional loader services. For these additional services, hourly rates shall include both equipment related costs (costs of ownership, registration, insurance, fuel, maintenance and any incidental costs) and operator costs (including salaries, benefits and incidental costs for operators). Additional equipment must be approved by the Public Works and Utilities Director or designee. Payments for the additional loader services shall be made monthly after submittal of required documentation.

7.7 **Ice Cutting:** The Town may request that the contractor provide labor and equipment necessary to remove ice buildup in specific locations throughout the Town. Ice cutting may include the application of de-icing material, heat, mechanical equipment or other means; and removal and hauling of ice to approved sites within the Town. Contractor shall be paid on an hourly basis for an appropriately sized and equipped ice cutting crew for these services. Hourly rates shall include operator salaries, benefits and incidental costs for operators; and fuel costs for vehicles as well as cleaning and washing of vehicles. Ice-cutting must be approved by the Public Works and Utilities Director or designee. Payments for ice cutting services shall be made monthly after submittal of required documentation.

EXHIBIT B COMPENSATION

1. Annual Fee. The Annual Fee for all vehicles, equipment, overhead and incidental costs shall be \$245,000 which shall be paid in seven installments of \$35,000.

2. Additional Services. Contractor shall submit monthly invoices to the Town for the following services rendered during the preceding month, in a form and detail reasonably acceptable to the Town:
 - Hourly rate including overhead, transportation and ancillary costs for snowplow equipment operators: \$120.

 - Hourly rate including overhead, transportation and ancillary costs for loader operators: \$135.

 - Hourly rate for additional snowplow vehicles and operators requested by the Town for heavy snow events or for services outside the October 1 to May 1 retainer window: \$325.

 - Hourly rate for additional loader services and operators requested by the Town for heavy snow events or for services outside the October 1 to May 1 retainer window: \$250.

 - Hourly rate for ice cutting (including two dump trucks, one loader and operators and one supervisor): \$750.00.

3. Invoicing and Payment. Contractor shall include on each invoice an itemized description of the Additional Services performed. In addition, Contractor shall submit complete Storm Reports for each incident during the preceding month. The Town shall pay Contractor the invoice amount within 30 days of receipt, provided that the invoice is presented as described in this subsection. The Town may adjust or reject an invoice if Contractor fails to perform the Services to the Town's reasonable satisfaction or if Contractor's performance of the Services causes loss or damage for which the Town may be liable, and Contractor fails to correct defective work in an expeditious manner. The Town shall give written notice to Contractor of any adjustment to or rejection of an invoice and the reasons therefor. The Town shall pay Contractor when Contractor has satisfactorily addressed or corrected the reasons for the adjustment or rejection of the invoice.

EXHIBIT C SNOW REMOVAL ROUTES
