| | | | | |
| | | | | |
| | | | | |
| Total Performance Security \$: | | | | |

To obtain a Stormwater Quality Permit, the application must be accompanied by a Performance Security in the form of an irrevocable letter of credit. The amount of the security shall be 115% the cost of material and installation of all BMPs called for on the SWMP. In determining cost of work, a 15% administrative fee shall be included. If the permittee does not successfully complete all required work or violates any requirements of the permit, the Town may take corrective measures and charge the costs of such work to the permittee and deduct costs from the letter of credit. Such costs shall include the actual cost of work plus reasonable administrative and inspection costs and penalties. If the total costs exceeds the letter of credit, the permittee shall be responsible for payment of the remaining balance within 30 days of receipt of an accounting from the Town.

NOTE: This permit is separate from any permits required by the Colorado Department of Public Health and Environment, Water Quality Control Division under the Colorado Discharge Permit System.
