Animal Help Now

Dave Crawford, davidc@ahnow.org

Injured wildlife?

FREE app @ AnimalHelpNow.org

24/7 emergency resource

Estimated Wildlife Incidents Resulting in Deaths and Injuries (United States, Annual)

- An estimated 365-988 million birds are killed due to building/window collisions
- An estimated 2.4 billion birds are killed by domestic cats (contiguous United States only).
- Between 6.3 and 22.3 billion mammals are killed by domestic cats and dogs (contiguous United States only).
- Injuries from dog and cat attacks result in 14% of cases brought into wildlife rehabilitation centers. Although this percentage seems small, such attacks are the second most common known cause for wildlife injury.
- The number one reason for being brought into a rehabilitation center is due to being orphaned (25% of cases).
- Motor vehicle strikes kill more than one million vertebrates *every day.*
- *Four hundred million animals are killed by motor vehicles annually.*

Prepare Your Pets for Disasters

Introducing the First Nationwide Pet Evacuation App

Protect your beloved companion animals with **Pet Help & Rescue,** a neighbors-based messaging app for evacuating your pets. Includes complete checklist for pet disaster preparedness.

PETHELP & RESCUE
PHaR.ORG

Download the FREE PHaR app today.

Developed by Animal Help Now (AHNow.org), a nonprofit 501(c)3 organization.

ANIMALHELPNOW

PETHELP&RESCUE
Neighbors Helping Neighbors' Pets

"Saving our pets from disasters means getting to know our neighbors. With disasters increasing in frequency and severity, the PHaR app promises to save thousands of lives of our beloved animal companions."

Leslie Irvine, Professor of Sociology, University of Colorado Boulder
Author of Filling the Ark: Animal Welfare in Disasters
